## EDUCATION

### Maharana Pratap Engineering College, Kanpur

**B.Tech in Computer Science Engineering** | Expected 2027

CGPA: 6.9/10

### CISCE (ISC)

**Class XII (English Medium)** | 2023

Percentage: 70%

### CISCE (ICSE)

**Class X (English Medium)** | 2021

Percentage: 79%

---

## TECHNICAL SKILLS

- **Programming Languages:** Python, C, C++, Java
  - **Web Technologies:** HTML, CSS
  - **Libraries & Tools:** NLP, Pandas, Numpy
  - **Software & Platforms:** GitHub, MS Excel, MS Office, MS Word
  - **Core Skills:** Problem Solving, Automation, Data Entry, Basic Web Development
- 

## PROJECTS

### Task Automation with Python Scripts | March 2025

- Developed Python automation scripts to reduce repetitive manual work.

- Used libraries such as `os`, `shutil`, `datetime`, `requests`, `selenium`, `pandas`, and `pyautogui`.
- Automated file handling, browser-based tasks, and workflow processes.
- Improved efficiency and reduced execution time for repetitive operations.

#### **Basic Chatbot | February 2025**

- Built a rule-based chatbot in Python for predefined user interactions.
  - Implemented basic conversation handling and response matching.
  - Explored chatbot design concepts and introductory NLP techniques.
  - Improved understanding of Python logic building and user interaction flow.
- 

#### **CERTIFICATIONS**

- TCS iON Career Edge – Young Professional
  - Networking and Web Technology
  - Gen AI Powered Data Analytics Job Simulation
  - Data Visualization Using Python
- 

#### **ACHIEVEMENTS**

- Solved 250+ problems on LeetCode
  - HackerRank Problem Solving (Basic) Certificate
  - HackerRank 3-Star Coder in Problem Solving
  - Completed HackerRank 30 Days of Code
  - Participated in AINCAT 2025 by Naukri.com
  - Participated in Techquest #18 – Tech Innovation and Future Trends
  - Participated in Brandquest #19 – Taglines and Slogans
-
